During the little "razzle dazzle" we have been having with our buzzard store contemporaries, some of our good friends may have formed the croneous impression that we are making a specialty of "patent medicines." Such is by no means the case, and as a matter of fact our sales of "patents" constitutes but a very small proportion of the business done here. There are but very few of them that we can consistently endorse, and frankly, we look upon the whole class of patent medicine manufacturers as anything else rather than the public benefactors they profess to be. ## THE PRESIDENT

LOS ANGELES, FRIDAY, OCTOBER 10, 1890.

A Crowd of Forty Thousand at Ottumwa.

Gen, Harrison spends the Day with Relatives.

A Parade in the Afternoon and Recention in the Evening.

Warm Welcome of Gov. Boles -Speech by the President-Scenes at the Coal Palace-An Interesting Day.

tracked at a quiet little station near Ottumwa until daylight. Despite the early hour, almost the entire population of the thriving young town of Ottumwa turned out to greet the Presi-

ARRIVAL AT OTTUMWA.

Rousing cheers were given a moment later, the booming of cannon commenced and the joliidcation of the ment later; the booming of cannon commenced and the joliideation of the day was fairly begun. In this city resides the President's sister Sally, wife of T. J. Davins, an old citizen. John S. Harrison, the President's gray-haired older brother, who is in business in Kansas City, met the party here and from the depot he and Davins escorted their distinguished relative to the Davins reidsnee, where the family breakfasted orother. Early in the forenoon the wastner became unfavorable. Rain began to fall, but did not seem to dampan the enthusiasm of the lowans, and estainty did not seriously mar the ceremonies, which took place under the saf of the Ottumwa Coal Palace and Iowa Industrial Exposition. At 10 o'clock President Harrison, under escort of Gov. Botter, and the pastion of the Could Palace. To the Passident it was full of

gait, was short through the Cost Pal-sce. To the President it was full of interest and his supprise and admira-tion were thoroughly evidenced by his numerous inquiries.

After the forencon visit to the Coal Palace the President repaired to the residence of his sister, where lunch was taken. The rain by this time had was taken. The rain by this time had ceased. At 1 o'clock the parade took place, consisting of State and other officials, military and civic societies, reviewed by the President. GOV. BOIES'S WELCOME.

At 2 o'clock this afternoon the public ceremonies of the day took place in the presence of an enthusiastic audi-

that in receiving small deposits they will benefit the public generally. That they are on the right road to educate the children in economy is fully demonstrated by the number of children that have taken advantage of the Children's Savings System, which was inaugurated by them some six months ago.

PARENTS, escourage your children to deposit their savings.

PARENTS, see that your boy deposits his savings, so when he becomes of age he will have saved enough to start him in business.

PARENTS, see that your daughter deposits her savings; it will buy her a home.

PARENTS, any child that will deposit its savings until it is 21 years of age, lays the found atton to fortune and success.

PARENTS, think well of the opportunity and respect of the great American which had attained such a high rank in the galaxy of nations. The President congratulated the people of Iowa on the phenomenal progress which they have made within the past decade, and was gratified by the evidences of prosperity observed on every hand, in the unique and magnificent structure (the coal palace)

ings until it is 21 years of age, lays the found ation to fortune and success.

PARENTS, think well of the opportunity and consider the vast amount of good you can do your child and the community. It enables the Savings Banks to accumulate small savings and loan it out for the benefit of the public. It thereby helps to build your homes and improve your city.

PARENTS and children please remember that the efficers of the Bank will be pleased to meet you, one and all, and try and make it to your interest in more ways than one to do business with them. Children's savings deposits received in sums of 25 cents and upwards.

Remember the place. No. 148 S. Main St. BOARD OF DIRECTORS:

ISAIAS W. HELLMAN, ANDREWJ. BOWNE, EMELINE CHILDS, S. A. FLEMING. in the common things of life. "And if I should," said he, "make an appli-cation of the lesson, it would be to suggest that we might profitably carry into all our homes and all neigh-borly intercourse the same transfor-mation spirit. The common things of this life touched by a loving spirit may be made to glow and glisten; the com-mon intercourse of life touched by friendliness and love may be made to fill every home and neighborhood with a brightness that jewels cannot shed, and it is pleasant to think that in our American home life we have reached this ideal in a degree unexcelled else-where. I believe in the American homes, whether in the city or on the farm. The American father and mother in their relations to their children are kinder, more hopeful and more be-

rupting with this argument for co.d water." [More laughter.]
The President closed by once more thanking the people for the kindness of his reception and wishing for Iowa and its citizens the largest increase of prosperity; the most secure social order and the increasing blessing of home

happiness.
Ottumwa
NEVER SAW SUCH A CROWD
before as was here today. A score of
special trains piled visitors into the
city, and at the time of the procession this morning there must have been forty thousand people out. One of the beautiful incidents of the parade occurred at the Adams school, where and the Adams school, where a solution is a solution congregated to see the President. He bowed his acknowledgment to the happy children, who each waved a flag, and their 3000 voices were uplifted in the familiar old hymn,

During the afternoon a large crowd gathered around the train and the President was again compelled to show himself and speak a few words. He said that such spontaneous greetings as these gave him courage in the work headed by Hon. J. G. Hutchison, Republican ex-candidate for Governor of Iows, and Secator P. G. Ballinger. America."

During the afternoon a large crowd

pleasant night's rest was afforded the President by the train being side-shook hands with thousands of tracked at a quiet little station near people. The orator of the evening was Congressman Grosvenor of Onio, whose address was an excellent one, well adapted to the occasion. in 32 seconds, the half in 1:04%, and

CHARITON (Ia.,) Oct. 9.—At 9 o'clock tonight the Presidential party left Ottumwa for St. Joseph, Mo., which will be reached at 7 o'clock tomorrow morning. Atchison will be reached about 8 o'clock tomorrow morning and To-peka at 9:30. At the latter city the Presidential party will be entertained until 5 o'elock p. m.

EXCITEMENT IN THE NEW YORK AND LONDON EXCHANGES.

Some Quick Changes in the New York Stock Market - Sudden Drop of Illinois Central -A Partial Recovery.

By Telegraph to The Times. NEW YORK, Oct. 9.—| By the Associated Press.] The excitement on the London Stock Exchange did not ma-terially affect the market here. Large sales of Western Union were made during the first hour, supposed to be for account of the largest brokerage house connected with the exchange, concerning which there have been rumors several days past. Ten thousand were sold the first hour and the price fell to 744. This selling was followed by unloading for other accounts in Burlington, Rock Island, Illinois Central and Richmond Terminal. There were also heavy sales of bonds for account of weak holders. The covering of shorts, and some supporting orders caused a rally and decided improvement toward noon.

herewith printed, as follows:

THE REPORT.

To the Los Angeles Clearing House Association, Los Angeles, Cal.—GENTLEMEN:
Another year has been added to the existence of banks and clients; twelve more months of activity have furnished our city with additional banks and a larger clientage; about three hundred business days have left their impress on our books and memory. In the main, we can contemplate with satisfaction this record, so far as the banking fraternity is conserned. No pestilence or fatality has invaded our official ranks, nor, with perhaps a single exception, has serious sickness fastened its hand upon any of our members. On the contrary, there have been additions to the official roster in the appointment of assistant cashiers in two of our older banks. We have also been able to furnish San Francisco with a financier who, though guiding the Nevada Bank with its \$3,000,000 of capital, is not unmindful of the interests of his former fellow-citizens. Most of us have been quietly devoting ourselves to local needs and routine duties, though not forgetful of the fact that a broad-shouldered member has traveled across the continent, formulated and presented to our Eastern cousins a plan for cursented the continent, formulated and presented to our Eastern cousins a plan for curacross the continent, formulated and pre-sented to our Eastern cousins a plan for cur

ticular in advance of our position one year ago.

To refer especially to the work of the Clearing House Association, the volume of clearings for the month of September, 1890, shows a gain over the month of August of over \$437,000, and over the month of July of over \$290,000. The clearings for September, 1890, also show an increase over the same month in 1889 of some \$5,000, very elight to be sure, but nevertheless, an increase. Could the returns from the three commercial banks not yet members be added, the figures would be decidedly and materially in favor of 1890.

The clearings and balances by quarters for the fiscal year ending September 30, 1890, are as follows:

Clearings. Balances.

secure the issue of \$200,000 of Clearing

In conclusion, I beg to thank the members for the uniform courtesy extended and
the consideration shown for such suggestions as I have made in relation to the work
of the association, and to express the hope
that this occasion is but the dawning of a
prosperous year to come, which will cement
still stronger any bond of union we have
found to exist and entirely eliminate the
undesirable. Very respectfully,

GEO. H. Stewart, Manager,

THE BELT ROAD.

Mayor Hazard Has Not Yet Signed the Franchise. Mayor Hazard was busy all day yes-terday looking over the communica-tions received from the opponents of the Electric Belt Railroad, and denied the Electric Belt Railroad, and denied himself to all visitors. The door of his private office was locked, and Clerk Robinson was kept busy informing visitors that His Honor could not be bothered. Late yesterday afternoon the Mayor was seen, and when asked if the franchise had been signed, replied that it had not, but beyond this was very non-committal, and declined to even intimate what his intentions are. He has until 12 colock tonight to make up his mind, and by that time will probably be ready to either sign or veto the measure.

It is understood that the Mayor personally is in favor of the road; in fact, he has so expressed himself openly, but very strong pressure is being brought to bear to secure the veto of the ordinance, and the matter will probably remain in doubt up to the last minute.

across the continent, formulated and presented to our Eastern cousins a plan for currency issue broad enough to cover the whole United States.

Since the date of my last report one commercial bank has opened its doors for business, May 1st, 1890, under the title of the Broadway Bank, with a capital of \$50,000. Other banks are either about ready to begin operations or are in process of organization. The Postoffice Savings Bank and Trust Company has changed its name, incorporating under the title of the Main Street Savings Bank and Trust Company, with the same officers in charge.

In view of the strong financial ebb-tide which set in against us some time since, it is somewhat reassuring to find, according to bank commissioner's reports, that the undertow has carried away, from July 1st, 1889 to July 1st, 1890, less than two per cent of the aggregate bank deposits four city, a loss more than offset by the deposits in new country banks tributary to this city. Although no published data is now obtainable, I am safe in assuming that the aggregate deposits have increased from July to October a larger percentage than for the same period in 1889, thus bringing us in this particular in advance of our position one year ago.

To refer especially to the work of the Carlet and the commended by the officers of the central committees.

THE PALOS VERDES LITIGATION.

The De Turk Divorce Suit Finally Settled-A Decree for the Husband-The San Pedro Kidnapers.

The attention of Superior Judge Van Dyke, in Department Four, was vesterday taken up with the trial of the cause of J. K. Tuffree against Alvan D. Brock, the San Pedro Har-bor, Dock and Land Extension Company, the Southern Pacific Railroad Land Extension Company, John W. Pearson, H. V. Berner, L. M. Stratton, O. H. Weller, E. M. Laferity, E. T. Barber, A. E. Dayis and Mrs. L. H. l'imms.

There is involved in the issue of this case about 700 acres of land, part of the Palos Verdes Rancho, including Timms's landing. The land is very valuable, as it comprises the best portion of the water front of San Pedro

The plaintiff, Tuffree, claims that in 1887 he was negotiating with Capt. Timms for this property, agreeing to pay therefor \$25,000; that he employed as his agent A. D. Brock; that after the agreement had been made with Capt. Timms for him (Tuffree) to purchase the land, he commenced negotiations for its sale to John W. Mackay or to Charles F. Crocker, at the time an official of the Southern Pacific Railroad Company; that H. V. Berner came to the city as the representative of Mr. Mackay and W. E. Brown as the representative of Mr. Crocker, to buy up the property; that the parties were sent to San Ped o to look over the land in company with Brock; that the result was, the plaintiff was defrauded of his deed or contract for deed to the ground by the three parties and others. Nathan Willett, the Norwalk farmer who was arrested for a murder com mitted eighteen years ago in Anderson county, Texas, and was turned over to Sheriff Bixley of Lee county, Texas, by Sheriff Aguirre, Tuesday night, made his escape from the Texas Sheriff at Colton night before last. Willett was described to Sheriff Aguirre before he nade the arrest near Norwalk, as one of the toughest criminals who ever escaped from Texas, and for that reason Aguirre would not allow Willett to go to his house after the arrest, and for this precaution he has been roundly ed by Willett's neighbors, wh think the Sheriff should have allowed. the murderer to go to his home to bid his family good-bye.

Willett's subsequent acts prove, however, that Aguirre knew his business, for had he allowed the murderer to enter his house, the chances are that there would have been another

When Willett was turned over to When Willett was turned over to Bixley, in this city, that officer made up his mind to get his man out of the city as soon as possible, as he teared a writ of habeas corpus, so he took the first train, which was the Colton local, out of the city, intending to wait at Colton for the overland, which left this city at 5:10 o'clock night before last.

A few minutes before 7 o'clock, or just before the overland reached Colt-on, Bixley and his prisoner were sitting in the depot waiting-room. Willett, who was handcuffed, was only a few feet from the waiting-room door, and Bixley was sitting next to him furthest from the door. Wilett's overcoat was on the seat next the Sheriff, and Willett began to shiver and asked Bixley to place the coat over his shoulders.

Bixley leaned over to got the coat, and as he did so Willett made a break for the door, and with both hands he opened the door, rushed out and slammed the door in the officer's face. Before Bixley could get out Willett was dashing through a crowd of men and the officer was afraid to shoot. Willett ran down through the Mexican portion of the town and made good his

scape.
A lot of officers and Mexicans started A lot of officers and Mexicans started after him at once, and yesterday afternoon they were reported to be close on his track. He still wears the handcuffs, so far as is known, as it will be impossible for him to get them off unless some one assists him with a file.

It is said by some that Riving you less some one assists him with a file.

It is said by some that Bixley got quite a large sum of money on his ranch before he left this city, and it was intimated by several who witnessed the escape that he has used his money to good advantage, but such cannot be the case, for he did not have a chance to see any one in this city, for he was taken through to the depoi and did not leave it until he was placed on the train, so he had no chance to consult a lawyer or visit a bank.

Mick on Tree Trimming-Sensible Suggestions-News Notes.

The monthly raid upon propertyowners to request them to trim their property has commenced, and the same trees lining the streets in front of their this work in the preceding months, a failure to find the owners of the vacant ots in front of which the trees are in a shameful condition. The policemen beats to trim their trees. In East Los Angeles the day man has a terri-tory embracing about four square miles, in which there are hundreds of miles, in which there are hundreds of lots not occupied and the owners of them are unknown to the people living in the vicinity. To secure the required information would take an officer, unacquainted with the business of searching records, more than his spare time while off duty, and then the only satisfaction he would have would be to write such owner that his trees should be trimmed, and by law he would be compelled to do so. Be-

trees should be trimmed, and by law he would be compelled to do so. Be-fore satisfaction could be obtained in many instances, the trees would be in such a shape that they would entirely obstruct travel. It has been suggested obstruct travel. It has been suggested that the city appoint an officer (if it belongs to the police department,) whose business it shall be to attend to nothing else but this tree-trimming ordinance, thus relieving the departordinance, thus relieving the department of the greatest of difficulties. If the residents were all owners of the property tney occupy, and the owners of vacant lots were all residents of the city, then the task would not be so irksome, but such is not the case, and the partoimen of the department get all the blame for the condition of the trees lining the streets. There is hardly a day that the open constitute when the task would not be so irksome, but such the county offices are laboring for the compensation allowed them by the county government act passed by the Legislature in 1887. There is hardly a day that the chief's office is not burdened with complaints from pedestrians, who have had their hats knocked off or their faces slapped by low hanging limbs. This condition of things can be nmbs. This condition of things can be eliminated by appointing a man especially for that business, whose duty it should be to make a thorough canvas of the entirecity, and when the owner cannot be reached and notified, have

the trees trimmed by the city and the cost charged up to the property and collect the same as taxes are collected.

COUNTY GOVERNMENT.

Changes that Take Place January 1, 1891.

THE SALARIES OF OFFICERS.

Los Angeles Still a County of the Fifth Class, Notwithstanding the Great Increase of Population.

As far as the county government act, passed at the last session of the Legislature, is concerned, on and after January 1st, 1891, the county of Los Angeles will be only a county of the fifth class, despite the fact that the borough has a population of over 100, 000 inhabitants.

This is a matter of a great deal of importance, as it involves the salaries to be paid the county officials who will be elected on the 4th of November

At the last session of the Legislature the county government act was the representatives from this county clause was inserted which covered Los Augeles county, it evidently being framed for that express purpose. But it did not the incumbents who were in office at the time the bill became a law

THE REPUBLICAN PARTY AND THE LABORING CLASSES.

One of the commonest charges brought against the Republican party by Democratic demagogues is that it is a party of plutocrats, whose interest is opposed to that of the mass of the people. How true is this charge?

One of the planks in the platform of the last Republican National Convention was of peculiar interest to the people of the Pacific Coast. It was as follows:

We declare our hostility to the introduc-tion into this country of foreign contract labor and of Chinese labor, and favor such immediate legislation as will exclude such labor from our shores. It is unnecessary to tell any intelli-

gent resident of the Pacific Coast how true the Republican party has been to its pledge in this instance. Previous to the election of Harrison, the Chinese exclusion measures had been but tissuepaper hoops for Chinese acrobats supplied with sufficient funds to jump through. How different has it been On the borders, both of Mexico and British Columbia, vigilance has been the order of the day: The patrol has been increased and officers have been given to understand that, in the opinion of the Administration, exclusion really does exclude. Red tape has been cut, and Chinese smuggling themselves into the country have been shipped back to the land of their na tivity.

Pacific Coast Democrats, as well as Republicans, know this. Let us give credit where credit is due!

Again, every important piece of legislation passed by the late Congress vas a "labor bill." The election law is a labor bill, for it is in favor of the poor voter, who constitutes four-fifths of the people. The Tariff Bill, the Silver Bill, the Land Grant forfeitures, the Shipping bills are all in effect labor

It is safe to say that no previous Congress has done so much as the recent one to answer the appeal of the following nominations have been made people for labor legislation, and this against every possible obstruction from the Democrats. In one week of the recent session the Republican majority passed no less than five labor bills. Here they are:

1. An effective prohibition of alien contract labor. 2. An effective eight-hour law, constituting eight hours a full day's work

for all Government employés.

3. An adjustment law, enabling claimants under the old eight-hour law to submit their cases to judicial arbit rament.

4. A law prohibiting the employment of convict labor on Government works.

5. A law prohibiting the use of the product of convict labor by the Gov ernment in any of its departments. What have the Democrats to show as

against this brilliant record? Let them tell us, or forever cease to prate about the Republican party as a plu-

CALIFORNIA FRUITS IN NEW YORK.

The wonderful growth of the Cali fornia fruit trade is surprising the inhabitants of Gotham. Until last year, our exports, except in rare cases, did not reach farther than Chicago, but now the New York trade in California fruits has become an important industrict, A. E. Stevens; Assembly, Forty-sixth District, William H. Harfruits has become an important industry, the ultimate expansion of which appears to be only limited by the sup-

The New York Sun recently devoted The New York Sun recently devoted a long article to the growth of this a long article to the growth of this For Clerk of the Supreme Court, J. D. industry. It shows that now California fruits adorn nearly every big and kind enough to say that California fruits "excel the finest native products in beauty and size, vie them in havor, and are not so dear that a workingman cannot afford to buy some for his wife or sweetheart."

This is in pleasing contrast to the depreciatory remarks on California fruit preciatory remarks on California fruit was indorsed. On the recommendation of Sacramento, Republican candidate, was indorsed. On the recommendational Discontinuous Di which recently appeared in another New

York paper. A short time ago, Tokay grapes from California sold in New York for fifty all. California will this year send into New York and neighboring States five thousand tons of grapes, pears peaches, prunes and plums, which is about half of what goes to Chicago The Sun says, referring to this State She has got a grip on the affections of the fruit lovers hereabouts by offering them only her best products, and she is going to try to keep it. Our native fruit is not holding its own against the Western invader. This is especially true of pears, which are much inferior to the luscious, clear-skinned California Bartietts that may be seen on hundreds of stands in tempting, picturesque pyramids of gold and rose.

New York will this year send Calias large. Apart from the substantial profit of the business, it is about the est advertising agency which the State could possibly have.

In the course of an article on patron age in office in the Century, Cabot Lodge makes the following trenchant remarks on the spoils system:

Democrate up North appear to enthuse over Markham to almost as great an extent as Republicans, and the Democratic papers have to do a power of whistling to keep their courage up.

From Ventura, through the Free Press, comes the information that the farmers of that section are "jubilant." This is the first official notification of this important fact that we have seen the isseason.

Markham may not be much of an orator, but he seems to get there all the same. Voters have had rather a least to end this points of the spoins system:

The system of patronage in offices we have always had, but it is none the less a system born of despotisms and aristocracies, and it is the merest cant to call it American. It is a system of favortism and nepotism, of political influence and personal intricute. In a word it is as sun-American and repoil which well be political influence and personal intricute. In a word it is as sun-American and repoil well be for a system by which Louis XIV and his successors drained the life-blood of the French people, and by which Sir Robert Walpole and his successors corrupted the British Parliament, has no proper place on American soil, and is utterly abhorrent to the ideas upon which the Democratic Government of the United States has been founded and built up. Whatever may be said for or against the substitute which is now in part established, it is at less t grounded on the American idea of a fair field and no favor, and this of itself is sufficient to prove it superior to a system.

WHILE Tolstoi's philosophical works are being excluded from the United States mails, how is it that a man like Sam Jones is permitted to publicly use such vulgar and indecent language as county government act passed at the following, which is from one of

me I'll spit on you and drown you, you are so insignificant. We don't bury dudes. They haven't got smell enough "after they are dead to annoy any one, and we just hang them on a limb.

THE success achieved by "California on Wheels" has induced the State Board of Trade to decide to send out a third train next year. So far, over a million persons have visited the exhibition. If each of these visitors has talked about what he has seen to only five others, ten per cent. of the entire population of the United States has eard of the glories of California.

THE Democratic papers are doing their utmost to show what an awful burden the new Tariff Bill will impose upon the poor people of this country Statements from such sources, jus before election, will be taken by levelheaded readers with several grains of salt.

THE new lottery law is being carried out, very strictly by the postoffice authorities. The entire mail edition of the Sunday Examiner was recently returned to the office because it con tained a statement showing the draw ing of raffles at a charitable fair.

As we recently predicted would be the case, fresh troubles have occurred in the Swiss canton of Ticino.

An Important Pension Decision Rendered by Secretary Bussey, WASHINGTON, Oct, 9.- By the Associated Press. Assistant Secretary Bussey has rendered in the case of S. Cole, of Company E, First New York Veteran Cavalry, a decision that defines the status of prisoners of war, who, having enlisted in the rebel service in order to escape imprisonment and return to their own command, are applicants for pensions. The decision rescinds the ruling made by Commissioner Black May 25th, 1885, in which the commissioner held that, regardless of circumstances and of motives, a prisoner so enlisting in the

motives, a prisoner so enlisting in the rebel service, even as a device of escape from starvation and imprisonment, should be held as having "voluntarily" sided the rebellion, and be debarred from a pension.

After presenting the full legal aspects of the question, the Assistant Secretary says: "The department must be controlled in all cases coming before it for adjudication by the fundamental rule that the rights of soldier and citizen alike can never be taken away nor forfeited except by the express terms of the law, the actual and obvious meaning of which should be taken without resort to subtle and forced questions. I respectfully overrule the former decision of your office and grant the pension sought."

PROCEEDINGS OF THE AMERICAN BOARD AT MINNEAPOLIS.

causes of the Falling off in Contributions - A Report Which Created Considerable Discussion-Changes Proposed.

By Telegraph to The Times. MINNEAPOLIS, Oct. 9.- [By the Asociated Press.] The most interesting paper to come before the American Board of Fore ign Missions today, and one which called forth acrimonious debate, was the report of the Committee of Nine appointed a year ago to exsmine into the method of administration of the officials of the board in Bos ton, especially the methods employed by the home secretary in ascertaining the qualifications of candidates for the Missouri field. The chairman of the committee is Astor Walker of New York, and associated with him are others representing the two great wings of the board, but not extremists in any sense. The report made a detailed showing of the finances of the board and compared what the board has received yearly for its work with what is given to our large benevolent societies of church. The figures showed that, while the contributions to these other bodies have tributions to these other bodies have been increasing year by year, as the church grew, there has been practically no increase in donations to the American Board. This state of affairs the paper argued, shows the dissatisfaction in the churches, ending in the quarrels that have come as a result of the present system of administration.

that have come as a result of the present system of administration.

The report, which was a lengthy one, was summed up in the form of resolutions at the conclusion. These provide that a committee on the treasurer's report be appointed by the board at the annual meeting next previous to the meeting at which the committee is called on to act, that the treasurer's report be sent as soon as ready to each member of the committee, that the by-laws be amended to provide that to each member of the committee, that the by-laws be amended to provide that the auditors shall annually employ an expert confirming the treasurer's re-ports and accounts; that there be a substantial increase of the force employed by the board to bring the interests of its missions before the churches

contributing to its support.

The resolutions further provide, with reference to missionary appointments, that questions Nos. 1 and 2 for can-

Question 2.—Have you any view at variance with these doctrines or any views of church government which would prevent your cordial cooperation with missionaries of this heard?

of this board?

These questions being so amended, all applications for appointment shall be made as now to the corresponding. cretaries of the board. nications shall be presented forthwith to the Prudential Committee. In case of a desire for further scrutiny into the theological opinions of the candidates, it shall be held through interview with the committee as a body, or if this is not practicable, with a sub-committee consisting in part of laymen. At such examination the doors shall be open for the presence of any member of the board or personal friend of the candi-

date.

The debate on this matter was a most animated one. Dr. Joseph Cook opened the attack on the paper, and was replied to by Dr. Quint. Then the venerable Dr. Thompson of Boston, for many years chairman of the Prudential Committee, severely criticised the methods of the Committee of Nine.

the methods of the Committee of Mine.

He took exceptions to the report as reflecting against the secretaries and Prudential Committee.

Dr. Walker replied warmly that his committee had abundant evidence for the ground it had taken, but had pre-ferred to suppress it. However, since Dr. Thompson had precipitated mat-ters, he would make it public. He then read a series of letters regarding certain young lady students in Wellesley Col-lege, who were rejected as missionaries some years ago. He then referred to them

some years ago. He then referred to them to show that the rejection was most unfortunate and improper, and had effectually shut off Wellesley College as a source of missionary supply.

Home secretary, Dr. Alden, then read a personal paper defending himself and the existing method, and criticising severely the Committee of Nine. Members of the committee replied, and by this time the debate had grown on accimonious that President Storre so acrimonious that President Storrs cut it off. After further talk, the resolutions as summarized above were adopted unanimously to the satisfaction of all except the extremists. Dr. Noble of Chicago, who accepted the resolutions, protested against any approval of the report itself and presented a resolution to that effect, which was adopted without any particular objection. Thus the curious result was presented of an action which seemed to cast a doubt and reflection on the report of the Committee of Nine and its methods, while adopting unanimously all its so acrimonious that President Storre while adopting unanimously all its practical suggestions. Both sides seemed to have the impression that they have won a glorious victory.

More Police Than Civilians at the Recent Trouble at Tipperary-Very Bitter Attack on the McKinley Bill.

Bu Telegraph to The Times. DUBLIN, Oct. 9.-[By Cable and Associated Press.] The hearing against the police for assault upon a number of persons at the courthouse in Tipperary on the occasion of the opening of the trial of Dillon and O'Brien commenced at that place today. Timothy Healey opened the case for Harrington, member of the House of Commons, who was severely injured. Healey declared that on the occasion in question, for every adult in the crowd outside of the courthouse there were four armed policemen. He told of the assault on Harrington.

The latter then took the stand and testified that there were fewer than fifty civilians outside the courthouse when he arrived, while there was a large force of policemen on each side of the gates. The policemen used great and unnecessary violence. Col. Caddell addressed the police, saying something to the effect that they must go in out of that and not make a dis-turbance. This command not being obeyed, the witness asked the police-men why they disobeyed orders. Then the assault was made upon him. Dur-ing the disturbance he saw the con-stable strike and fell Sheshy. vilians threw no stones and struck no blows except in parrying blows from the policemen's batons.

In opening the case Healey asked that the ordinary justices should be replaced by five resident magistrates of the bench. The application was refused. While O'Brien was giving evidence, Healey questioned him regarding the photographs he had taken. The presiding magistrate ruled this irrelevant. A discussion ensued, at the end of which Healey told O'Brien to leave the witness box. All of the complainants and their friends left the courtroom, and after the refusal of the request to adjourn on account of the constitution of the bench, the summons were withdrawn.

'Germany United and Europe Paci-fied" is His Sole Desire.

PARIS, Oct. 9 .- [By Cable and Asciated Press.] Gil Blas prints an account of an interview alleged to have been had with Emperor William durng his recent visit to Austria. In this the Emperor is represented as having dilated upon the Teutonic char acter of the Alsatians, of whom he de-clared he was very fond. He expressed a desire to reward their loyalty by acts of conditation, and said it was the duty of Germany to assist Alsation industry and commerce, especially the cultiva-tion of her wine. He declared that he would embark in no adventures, but would leave Germany to his son as he received it and would spare the Reichstag the horror of another war. He thought the Socialists had been too ong treated assavage enemies. Freider-charuhe had tried to force upon him the policy of perpetual war abroad and war at home, therefore he had left Friederichsruhe. He had determined, he said, to complete his grandfather's work. THE CHINESE CASES

Officers Dunn and Johnson's Exam ination at Norwalk Today.

The examination of Police Officers Dunn and Johnson, arrested some days ago on the complaint of a Chinaman, sworn to appear before the Justice of the Peace at Norwalk, will take place at that town today. The officers are at that town today. The officers are charged with malicious mischief in breaking down some iron doors in Chinese gambling houses, which is forbidden by an ordinance passed by chinese gambling houses, which is forbidden by an ordinance passed by the Council. The case is a peculiar one in many respects, and before it is concluded there are likely to be some sensational developments. In the first place, while some doors have doubtless been broken, the officers now under arrest have not happened to be on any of the raids in which this was done. Wells, Guthrie & Lee were the attorneys for the Chinese in one case before Justice Austin, when a decision was given that the ordinance was valid. Col. Wells was very much place that the officers had no more right to break down a door in Chinatown than they would have in his own house, and insisted that the ordinance would be knocked out before the higher courts. The Chinese tried to get a complaint against the officers, but the District Attorney refused to issue one. Nor would any magnificent type—broad-shouldered in against the officers, but the District Attorney refused to issue one. This afternoon the visitors were taken to the Wildwood oil field, the Westinghouse Air Brake Works and other industries along the Monongabela and Allegheny rivers.

PRETTY GIRL ABROAD. If You Meet Her Address Her in English,

FOR SHE IS AN AMERICAN, SURE The Lack of Beauty Among Cortinental Women - Types in France, Germany, Switz-

COPYRIGHTED, 1890-FOR THE TIMES. |
AMSTERDAM, Sept. 24.—[Special correspondence.] I watched her from the moment she sat down to "early bite," as the Dutch idiom styles the national breakfast of coffee, bread and herrings. She had brown hair combe loosely back from a white forehead, large gray eyes and a fresh complexion. That she was American was evident even before she smiled the waiter, in his shabby dress suit, speechless as she asked for ice water. She wore a pretty traveling gown of black and gray. She put her elbows on the tablecloth, but the curves of her round arms were so graceful that one was easy when she assumed a more conventional pose.

I watched her butter her rolls and pat the gray-haired business man evidently her father, on the back, and evidently her father, on the back, and go on a marauding expedition across the table for an extra lump of sugar for her mother's chocolate. I did not take my eyes off her till she pushed back her chair and was bowed by the fascinated waiter out of the "estzaal." Then I wondered why she so held my attention, and the answer wrote itself out clear and large ou the hotel table cloth—one seldom sees a pretty girl in Europe and when one does she is apt to be American.

to be American.

It would be an interesting question, if one could hope to find an another, why womanly beauty is so rare, at least over the northern half of the continent. least over the northern half of the continent. It was under the shadow of the Jungfrau that an English girl leaned on her alpenstock, as a crowd of urchins flocked about her to sell that white flannel fraud which they palm off edelweiss on the unwary. Here are twenty good-looking children, said she to her father, and the boys will grow into fine, sturdy, handsome men, but the girls will take smallpox or die young. It is true that it wald be hard to find fifty physically attractive women in Switzerland, in spite of its magnificent climate and its mountains, which it would seem must make one fair simply to grow up continually looking on ply to grow up continually looking on them; it is also true that the case is not much better in the countries round about Switzerland, or indeed in England itself, except indeed among what the English girl would have called the "lower classes."

Sir John Millais' lament that female

Sir John Millais' lament that female loveliness is dying out of Great Britain has gone round the world, but it must be acknowledged that the tight little island has still pretty chambermaids. It would be hard to say just how the law of natural selection has worked to bring about such a result, but while the country girls of New Hampwhile the country girls of New Hamp-shire and Western Massachusetts have shire and Western Massachusetts have a wild-rose grace that the heavier build of the English farmer's daughter cannot rival; while the saleswomen in New York stores are more attractive in countenonce, though, ales, not manner, than women clerks in the great London houses; while there are more beautiful faces to be seen on Fifth avenue than Rotten Row, one cannot be waited on in American hotels by

mirable; equally vigorous, to all appearance, in the woman, but in divers ways peculiarly ungraceful.

The aristocratic English girl has a face of remarkable shape. The better her position, according to Burke's Peerage, the longer is her countenance. An expert might distinguish an Hon. Miss from a Lady Mary, daughter of a hundred Earls, and Lady Mary again from her Grace by the simple process of measurement. The face is not oval, it is merely elongated, and the chin is apt to be pointed. The more marked this characteristic in the individual, the more certainly is the hair pinned high on the head, tilting the stiff sallor hat down over the eyes and exaggerating the northeast to southwest diagonal. In evening dress a bunch of plumes or a tall pin is thrust into the hair upon the very crown, producthe same effect. The eyes are rather long and often in proportion narrow, the neck extensive and made much of by the tight, high dress collar. An English girl's shoulders are broad and square, arms long, waist long, general effect in the tailor gown angular, only partially redeemed by the clear red and white complexion and the general air partially redeemed by the clear red and white complexion and the general air of health and well-being. No other woman in Europe has her physique, but measured by Greek standards she far from beautiful.

is far from beautiful.

It is a mistake to suppose that the Englishwoman holds her youth longer than the American. She does not fade but she coarsens. In some cases there is a special reason for this, as the six or eight inebriate asylums for women within easy reach of London might testify. testify.

The Frenchwoman has the one quality which the Englishwoman misses. She is almost invariably graceful, but she has no roses. I never saw three Parisians who were in face beautiful. English girl is at her freshest, because, by her physical and mental training her development is retarded. She eats sweetmeats and walks out decorously behind a vail. Theoretically when she marries she is still a child, but a child that has not been allowed to run. In the first year or two of married life there comes a sudden blossoming, but the Gallic nature, with its emotional temperament, its vivacity, its sensitiveness, plows lines very quickly in the faces of its women, who a e not brought up to have the Saxon stamina. The Parrisienne is apt to be sallow, well-dressed and witry, the repartee and the toilets often proving more effective than a better complexion.

In Switzerland the women who are best favored are found on the St Gotth hard route and the lines of the passes leading into Italy. They are Italian largely in blood and language; but, asside from a vision or two of a dark Southern face framed in a bright hand-kerchief, the only picture of a pretty Swiss woman which comes to me is that of an inn-keeper's daughter in the bleak Useren Thal, who served white wine coquetishly to a couple of loutish young fellows in a fine old dining room ceiled in oax, and sang to them at an and wondered. She had bright hair and a winsome smile, which stand out as an oasis in a desert barren of temale charms. In Lucerne and Zurich, as well as on the mountain side, the work men of the land of Teil seem heavy of feature and figure.

The German girl who is pretty is most fair and sweet to look upon, with her smooth hair and fresh skin and her contented absorption in the daily interests of the household. She is not chic like the Frenchwoman, nor tailormade like the Eaglish girl, but she is most blooming and wholesome and pleasant to live with. It rests the eye to pass her in the streets of Heidelberg or Cologne, with her unlined forehead void of anxiety, or to watch the air of importance with which she jingles a huge bunch of keyes. She is not nervous looking. Indeed, she often fails of beauty by reason of too much placidity. It is only under stress of some little excitement that her face gains interest by gaining expression. Germany is not a woman's country, and a noble type of beauty—the beauty of maturity—can hardly flower luxuriantly, though one may find single blossoms, in a land where women are shut out from large

The German woman does not dress well, and here she loses by comparison with France or England. She has adopted the tailor gown, but German tailors do not cut it to fit without awkward wrinkles. She wears the sailor hat also, and it is even less becoming to her round tace than to the English long one. She gets heavier much earlier in life than she ought, but even when her pounds have multiplied themselven she welks with spleadid vigor. I believe the only white-haired women who make Alpine ascents are Germans. Frenchwomen look at the mountains from the valley hotels. American women go where mules can take them. The Brittsh matron is carried to view points in a chair by six porters, but the German woman of almost any age will climb,

Flemish women are small. They lack the French grace and have no more than the French beauty. The women of Brussels are quasi-Parisians, but those of Antwerp are rather after the Dutch type. #### THE CAMPAIGN.

### A Legislative Black List Sug-

gested. THE PILLAGE OF THE STATE.

The Congressional Election - Why Elect Democrats? - Markham and Bowers in San Diego-A Democratic Bolter.

San Francisco Bulletin.]

It appears that six members of the last Senate and seven members of the last Assembly have been se far renominated. Of the six senators so renominated four are Democrats and two Republicans. Of the Assembymen renominated five are Republicans and two are Democrats. These nominations are as follows:

FOR THE STATE SENATE.

J. W. Ragsdale (Rep.,) Sonoma county.

Robert Howe (Dem.,) Sonome

D. A. Ostrom (Dem.,) Yuba and Sutr counties. William Simpson (Rep.,) Alameda

county. J. H. Seawell (Dem.,) Mendocino and Lake counties.

L. R. Tullock (Dem.,) Merced, Tuolumne and Stanislaus counties.

ASSEMBLYMEN.

J. R. Lowe (Rep.,) Santa Clara

ounty.

F. L. Coombs (Rep.,) Napa county.
E. S. Culver (Rep.,) Alameda county.
Josiah Sims (Rep.,) Nevada county.
Thomas Renison (Dem.,) Monterey county.

Nestor A. Young (Rep.,) San Diego

county.

It may be that all of these nominees are able to prove that they not only did not participate in the pillage of 1889, but lic disaster. The renominations are nearly equally divided between the two parties—six Democrats to seven Republicans. The election of the candidate in each of these Senate and Assembly districts who was not a member of the last Legislature will not make a great deal of difference politically.

But the people owe it to themselves to administer punishment to every member of the last Legislature who is not able to establish that he opposed the pillage from which the State is but slowly recovering. If prompt action of that kind is not taken, the "skinning of eels" will be repeated at no distant day, and who shall say that the negligent constituencies did not deserve it? In some cases of renomination the people had probably very little to say. This sort of work is often done by the courthouse clique, and that is an organization which is not usually in deep sympathy with the tax-payers. It is true that some counties may have received benefits from the enormous appropriations of 1889. But when the matter is sifted to the bottom it will be found that it is only a few operators in them who have really gained anything. No appropriation made in 1889, no matter how large, will compensate all the tax-payers in any county for the State tax of 78.2 cents last year and the State tax of 58 cents this year. To meet these drains a large part of But the people owe it to themselves the State tax of 58 cents this year.
To meet these drains a large part of
the earnings of the farmers, fruit-raisers and winemakers for two years has
been and will have to be paid into the State Treasury.

When all the nominations are made When all the nominations are made for the Senate and Assembly it will be in order to publish lists in which all members of the last Legislature who have been renominated will be especially indicated, unless they are able to purge themselves of participation in the most gigantic public robbery that has ever occurred in an American State. This is one of the issues of the campaign that campaign that cannot and will not be campaign that cannot and will not be campaign that cannot and will not be ignored. It rises above party. It is in a sense a measure of self-protection which is absolutely essential to the well-being of the community.

Republicans are going to vote, let it consult somebody who is not generally regarded as an under-study for a calf.

### The Congressional Election.

The Congressional Election.

(Ban Francisco Chronicle.)

In view of what the present Congress has done for California under Republican rule can the people of this State afford to elect a single Democrat to the next or Fifty-second Congress? Leaving the question of gratitude out of consideration, can California, as a business proposition, run the risk of a reversal of the policy which has been so liberal to her in the present and which must be so beneficial in the future?

These are not questions to be passed over lightly, nor are they to be determined by individual preferences or likings. It is a foregone conclusion that if the Democratis secure a majority in the next Congress they will strive to undo the work of the present Congress and to put into force that sort of baseborn and illegitimate free trade which they seek to make more acceptable to the people by calling it tariff reform. They will level all their guns at certain provisions of the McKinley bill, and among them some which are advantageous in the extreme to California.

The people of this State must vote at the coming election with their eyes open. They must realize that every vote for a Democratic candidate for Congress means a blow at the wine industry, the raisin industry, the califuring which is of peculiar benefit to California and to which she looks for her future prosperity. Every interest named runs the chance of being affected injuriously

should the Fifty-second Congress be Democratic.

Nor can the California voter rely upon the individual professions or assertions of Democratic candidates for Congress that the interests of the State would not suffer at their hands. King Caucus would be too strong for them, and they would have to vote to pull down the industrial fabrics which the people of California have built with so much labor and trouble when the orders came from their party leaders. The history of the Mills Bill in the House showed how much reliin the House showed how much reli-ance a D-mocratic Congressman's con-st tuents could put in his promises to protect their interests and how readily they would fall down when the party

they would fall down when the party whip cracked.

Before many days now the composition of the Fifty-second Congress will be determined. California, if she has any sense or judgment, will do her part towarda maintaining its present political complexion by electing six Republicans to represent the State in the Lower House.

Left the Democratic Party.

Owing to the fact that the Courier did not have honor enough to prove its assertion that there was a letter in existence written by H. H. Markham, denouncing his Irish miners, and employing Chinese instead, the San Francisco World, an influential weekly newspaper, which copied the editorial of the Courier, has left the Democratic party and now comes out in support of the Republican State ticket. Wonder which paper is the mascot?

Fifth. The attitude of THE TIMES towards organized labor cannot be successfully assailed. Markham and Bowers.

ISan Diego Sun.]

The vealy vaticinations of a San Diego youth in Los Angeles about the respective prospects in this county of Markham and Bowers may impress the Los Angeles Herald seriously, but they are received here with a careless jeer. The youth in question has a gudge against Senator Bowers as well as an amusing desire to go to Congress himself, and the Herald interview was a part of his alleged strategy.

As for Col. Markham, he will poll the entire Republican vote of San Diego county. If Senator Bowers runs ahead of him at all it will be at the expense of the Democrats who know and respect him as an old neighbor. That these are the facts of the case, everybody in San Diego county, Democrats as well as Republicans, thoroughly understand.

If we may be permitted to advise the Herald, we will say that the next time it desires to find out how San Diego Republicans are going to yote, let it Seventh. In the emergency which and lucrative employment aggregating

The army of doctors has apparently enjoyed itself amazingly at Berlin, where science and surgery have been where science and surgery have been judiciously tempered with amusements of the most varied description. Otters and minks were very scarce in Connecticut a dozen years ago, and it was feared that the animals might be-come extinct, for their hides were worth from \$5 to \$10 apiece, and everybody hunted them. Then suddenly fashion changed her mind about the value of mink and otter skins, the price went down and now the animals abound in the state again. So numerous have minks become there that they are get-ting to be quite familiar with country people. Recently a mink, frightened by a sharp thunder storm, fled out of a meadow, rushed into a farmer's dwelling, and raced from room to room until a hound caught him upstairs in a cham-

A still more remarkable incident occurred in Hartford a few days ago. A mink trotted right into the heart of the city, among throngs of people on the streets, and passed all kinds of dogs with impunity, and finally made his way into the back yard of a big store on Asylum street. In the yard men cornered him and tried to capture him alive, but he fought so desperately that they had to kill him.—Philadelphia

Mountains Full of Gold.

Recent explorations of the Olympic mountains have been of great interest to mining men. A geologist, who has given some attention to the work of the exploring parties, says: "I have examined many specimens from the Olympic, but until of late they were of low grade outcroppings. Recently, however, some outcroppings. Recently, however, some extremely rich specimens have been received. These new discoveries have excited a great deal of interest in prospectors in this region, and specimens are coming in rapidly. Not long since I received one piece that was so rich that I refused to assay it, as it could not possi-bly be a fair sample. It would have as-sayed over \$100,000 per ton. There could not possibly have been in any locality any considerable quantity of quartz so rich. I have long known that this district was rich in coal and iron. I am now convinced that it hides vast treas ures of silver and gold. Numerous prospecting parties are being fitted out, and hundreds of prospectors are already in the mountains, which are quite easy of access."-Tacoma (Wash.) Cor. St. Louis

The Second Day of the Convention.

THE PROCEEDINGS IN DETAIL.

Officers Chosen for the Ensuing Year-Reports and Addresses-Other Local News of Much Interest.

The second day of the W. C. T. U. Convention was opened in the Methodist church at 9 o'clock yesterday morning. The cloudy skies did not prevent the delegates from prompt attendance, and when the president called the assemblage to order the auditorium was comfortably filled.

The session was opened with devotional exercises. The minutes of the

previous session were read by the sectetary, Mrs. M. J. Mills. Mrs. Garbutt then called the roll of delegates, which showed a number of general officers present.

Mrs. Sudduth read the report of San Bernardino county. It showed that good work is being done in that section. Two prosperous unions have the past year.

Mrs. Dimmick, in her address on the longest which was received with produced applause.

A motion was made to extend the year courtesies of the convention to Mesodames Houser, Vineyard and Horine, former workers in Illinois.

A telegram was received with produced applause.

Among Soldiers and Sailors" was read by "Mother" Ransome. This line of work was spoken of as being more encouraging this year than for some time past. After touching upon the hold of temperance among the Grand Army men and speaking in complimentary terms of the excellent behavior of the veterans at late encampments and of their abstemious habits, the following figures were cited as being taken from the report of the national president, Mrs. Annie Wittimmyer: "At the be-ginning of this organization, seven years ago, we numbered only forty-two and were without money, property or prestige. Today our membership reaches nearly one hundred thou-sand. Our charity work dur-ing the year is over one hundred thousand dollars." All Christian women were exhorted to use their best endeavors to raise the stand-sed of Grand Army men and all other to a higher state of Christian charac-

Seventeen unions have responded to our reports and pledged themselves to carry on this department of work this carry on this denartment of work this coming year. Five public institutions have been visited and religious exercises have been held. The Los Angeles Central Union reported thirty families visited and helped. Weekly religious exercises have been held at the jail. Twelve Testaments and six Bibles have been given out. And twenty have been brought to Christ. San Bernardino and Colton Y. W. C. T. Unions visited the county hospital June 9th. Flowers, literature, Scripture texts and oranges were distributed to all the inmates. Mrs. E. J. Davis of Riverside gave a very interesting and instructive talk to the immates on "Love." Old hymns were sung and a real spiritual feast was had. The speaker went on to say that the jail was visited several times during the year by the Los Angeles Y. W. C. T. U., flowers and cards being distributed. The Palm's W. C. T. U. were reported as taking flowers and text cards to the boldiers' Home. It thought the minds and hearts of the cloid and nearly of the Riverside Lave. In the results unsatisfac coming year. Five public institutions fluenced by following the example of the Riverside Loyal Temperance Le-

gion in taking flowers to the sick.

The report of Mrs. Emma Harriman on "Franchise for Women" was read by Mrs. Garbutt. The outlook was regarded as most favorable, the admission of Wyoming, with man and woman equal politically, being pointed to as indicating the "dawning of the day when our Government shall be what it represents itself to be, for the people, by the people and of the people." The sentiment in Southern California was sentiment in Southern California was spoken of as very encouraging. The report giving in detail the work done in the different counties: Five of the eight counties have Superintendents of this department. Money has been raised, meetings held and literature distributed and the work is being pushed with great zeal. The efficiency of the State Superintendent was particularly commended, he having written eighty letters and postals, sent out the most of the 5000 petition heads, written articles for the papers, distributed 120 reports of the Nationa Superintendent, 12,000 leaflets and 220 copies of papers devoted to the work pies of papers devoted to the work

The minutes of the State Executive Board were read by the secretary, after which the election of officers was taken up. The roll call showed that ninety-five delegates were present and entitled to vote. On the informal ballot the former incumbent, Mrs. W. P. J. Button of Riverside, received eighty-two of the votes cast for president. The ballot was made the formal vote and Mrs. Button was escorted to the platform by Mrs. Garbutt. The convention arose and received her with the Chantauqua salute. Mrs. Keyes of Los Angeles was re-elected vice-president and Mrs. Garbutt of Los Angeles corresponding secretary. Mrs. M. J. Mills of the same place was re-elected recording secretary.

After prayer by Mrs. Southwick, adjournment was made until 2 o'clock.

The afternoon session was opened The minutes of the State Executive

A pleasant surprise then occurred.

A pleasant surprise then occurred.

Mrs. M. E. Hewett, on behalf of Riverside Union, in a speech beautiful for its simplicity and appropriateness presented to the State Union a very excellent portrait of Mrs. N. P. J. Button, the beloved State President. The picture will be hung in the Temperance Temple. Mrs. S. E. A. Higgins accepted the present in behalf of the State Union in a very happy manner.

The minutes of the morning session Mrs. Hewett read the report of Ventura, which showed that, notwithstanding the blessing (?) of high license, they have been able to do much

good temperance work.

Rev. T. W. Hynes of Greenville, Ill., and Dr. Daughter of Pasadena were introduced to the convention by Mrs. Cash. Rev. Mr. Hynes made a brief

ty's "tower of strength," having the largest membership and meeting every week, thereby doing the most efficient work. Redlands was called "the Queen of the Valley" with a union of forty members. Colton and San Bernardino were spoken of as having a hard task to work where the saloon is licensed. The unions at Rialto, Beaumont and Cucamonga were reported as doing good work, and in closing the spe aker mentioned the names of several individuals who have been faithful workers in the cause.

A paper entitled "Department Work Among Soldiers and Sailors" was read by "Mother" Ransome. This line of work was spoken of stream and solding round the stream of the control of the contro al workers in the cause.

A report on "Parlor Work in Southern California" was read by Superinstendent Mrs. Hewitt. The importance of this line of work was dwelt on, and the great difficulty experienced in arousing the interest of the local unions was deeply deplored. The local reports so far received were few and the results unsatisfactory.

COLLECTION OF BREVITIES.

Marriage Rumored to Have Taker Place Yesterday Evening-The Monrovia Water Case-In a Pennsylvania Cyclone.

The Monrovia water case will come up again before Judge Van Doren next Tuesday. Officer Butterworth is scourng the country for witnesses. It is rumored that one of the gentle-

men who assist in preserving the peace his choice yesterday evening.

NOTES AND COMMENT. Some excellent papers were read yesterday before the W. C. T. U. Con-

vention. Yesterday brought to mind a blustering October back East.

Barring the condition of Colorado street in wet weather Pasadena has Mrs. Dimmick, in her address on little reason to complain of her thorsome interesting statistics about crimnotice.

BREVITIES.

A meeting of John F. Godfrey Post, G. A. R., was held yesterday evening. The aspirants for the postoffice plum are busy filling up their lists with signatures.

The Athletic Club's meeting in the old City Hall last evening was well attended. There is a bad cave-in at the inter-section of Colorado street and Los Robles avenue.

C. S. Frost has sold his 5-months-old colt Altazar to M. W. Stinson of Los Angeles for \$600.

The Winnston-Metcalfe wedding in the Presbyterian Church this evening will be the opening event of the season. C. E. Daily has sold, through Wood-

worth & Marriner, his residence on Walnut street to Dr. D. H. Thatcher. The price paid was \$2300. Col. Graver is billed to give his famous entertainment "America" in the Opera house tomorrow evening. The entertainment will be given for the benefit of John F. Godfrey Post, G.

this place. Mrs. Stanton spent most of her time in Pennsylvania. She was in Wilkesbarre during the recent de-structive cyclone there, and had a narrow escape from death. The house sh- was in was razed to the ground, but she found safety in the cellar, into which she retreated with all possible haste.

A Long Slege of Euchre Some Pittsburg people had a great game of euchre lately. It began in Queenstown, Ireland, and ended in Altoona Tuesday morning, with only intermissions for meals and sleep on the steamer. The contestants were Charles A. O'Brien and James Wilson on one side, and George J. Luckey and William B. Neal. The deciding game of the series, the 185th, was won by Messra. Luckey and Neal.—Pittsburg Dispatch.

Artificial musk is a new chemical prodct, with an odor to be distinguished from the real musk only by the expert. Very curlously this odor is not possessed by a 1 per cent. alcoholic solution, but it is only brought out by dilution with water. The ance seems specially suitable for perfuming soaps.

The year 1890 bids fair to fulfill the prophecy made by many close observers some months ago, to the effect that this year, in the number and importance of labor strikes, both in this country and Europe, would go ahead of all records.
